The Kiss (front)
and Water Serpents II (back).

the game also contains:
1 template card
1 Challenge card for The Kiss
1 Challenge card for Water Serpents II

To succeed, you’ll need to be gentle above all!
A few words of advice

• Some elements differ from card to card (either by nature, color or shape), even if they should go in the same place? This is normal!

• You feel some cards overlap in a weird way during your first attempt? Not too bad... if you can stand the weirdness, that is.

• Check every single detail to find the best angle to lay your card.

• Train your dexterity and try to find techniques to lay the cards, to hold them, and to slide them very delicately. You can also play on a game mat for maximum efficiency.
Vienna, Austria, 1908. You are Gustav Klimt. You are finishing The Kiss, a painting that will stay as the most representative of all of your art. All of the gold leaves are at the right place on your painting, but the colors of a few elements could be refined and changed...

For each challenge, start from scrap.

1. Make your painting with all cards. Disregard color overlap if it ever happens, however surprising it may be!
The Kiss - Challenges

2 Oh, those black donuts... what a bad idea! Especially since that kind of fritter will only be invented in 50 years! Hide them all. We don’t want a single black donut!

3 Let’s forget about the donuts. Oh, those brown boxes... we will have beautiful black rectangles instead. Let’s start everything from scratch!

4 You’re sure of what you want... this time around! No black donut, AND only black rectangles!
Hang on, you’re almost done!
Gustav, there goes a new work, and all the questions that come with it...

For each challenge, you must start from scrap.

1 Make your painting with all cards. You should disregard any surprising shapes or colors overlapping for now!

2 Let’s focus on the women’s faces. The balance of the picture will be achieved only once there are four faces exactly!
3 This floating and watery environment is rife with flowers, but those bright red flowers are gaudy and horrid... Begone, all of them! No bright red flower, none!

4 We also need to find a certain balance in fauna... No blue fish should be seen, and only then our work will be perfect and complete...
