

The Large Basilica

Black Forest

Cartzzles are pictures you must first piece together by laying cards on top of each other (with or without the template, depending on your dedication). Then, start again, using challenges this time!

This box contains 2 Cartzzles over 50 cards (one on the front of the cards, the other on the back):

The Large Basilica (front)
and Black Forest (back).

the game also contains:

- 1 template card
- 1 Challenge card for The Large Basilica
- 1 Challenge card for Black Forest
- 1 Help card & this How to play card

To succeed, you'll need to be gentle above all!

A few words of advice

- Some elements differ from card to card (either by nature, color or shape), even if they should go in the same place?
This is normal!
- You feel some cards overlap in a weird way during your first attempt? Not too bad... if you can stand the weirdness, that is.
- Check every single detail to find the best angle to lay your card.
- Train your dexterity and try to find techniques to lay the cards, to hold them, and to slide them very delicately. You can also play on a game mat for maximum efficiency.

The Large Basilica

(Mattias Adolfsson)

Solo

1 Piece together this Mattias Adolfsson drawing by laying all the cards.

- 2 Our artist is a bit sloppy.
His paint gun is fast and wondrous...
but it also sprays unwanted droplets of
paint everywhere on the canvas!
Piece that drawing together again and
hide all 24 blue and orange paint stains.

The Large Basilica - Challenges

Duel - to each their half, but beware the paint!

On the back of the cards, you'll find **blue and orange leaves**. Sort the cards in two piles, one per leaf color. Each player takes a pile.

4 cards have both ( and ) symbols. From those, **two have a colored stripe** (on the Basilica side). Each player takes the striped card that matches their deck's color and uses it as the **basis of their half-Cartzzle**.

Both remaining cards are put into the box. Each player will make their own side of the painting, each with their own cards. **The first player who finishes their side ends the game.** Each player scores as many points as there are visible paint stains in their half of the painting, plus a point for each unplayed card.

The player with the least points wins.

Black Forest

(Mattias Adolfsson)

Solo

- 1 Recreate all the forest by laying all cards. Disregard any surprising overlaps for now!
- 2 Start again, but this time... let there be no blue or orange leaf!

- 3 Some of these animals show beautiful and vivid colors... Start over and select all 14 bright blue animals!
 **x14**
- 4 Last, hide all the bright blue animals, and instead have the painting show all 10 robots from that fabulous color.
 **x10**

Black Forest - Challenges

► **Duel - to each their half, but beware the leaves!**

Place the 4 cards with blue AND orange leaves as a vertical line in the center of the table. Split all other cards in 2 piles (blue or orange leaves): give one pile to each player. The player with blue leaves will make the right half of the Cartzzle and the orange leaves player takes the left half. Do not touch cards that were laid by your opponent! The first player who finishes their side ends the game. Each player scores as many points as there are visible leaves of their colour, plus an additional point per unplayed card. The player with the least points wins the game.
