

# Boundless Brocéliande

# How to play

Cartzzles are pictures you must first piece together by laying cards on top of each other (with or without the template, depending on your dedication). Then, start again, using challenges this time!

This box holds a single Cartzzle, an endless one you can make with BOTH sides of the 50 cards:

## Boundless Brocéliande

**the game also contains:**

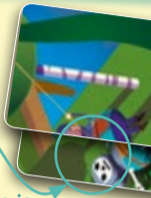

- 1 template card
- 2 Challenge cards for Boundless Brocéliande
- 1 Help card & this How to play card

**To succeed, you'll need to be gentle above all!**

## A few words of advice

- Some elements differ from card to card (either by nature, color or shape), even if they should go in the same place? This is normal!
- You feel some cards overlap in a weird way during your first attempt? Not too bad... if you can stand the weirdness, that is.
- Check every single detail to find the best angle to lay your card.
- Train your dexterity and try to find techniques to lay the cards, to hold them, and to slide them very delicately. You can also play on a game mat for maximum efficiency.

# Boundless Brocélian-

**You now are at the heart of Arthurian myth. You know the legends well, as they have inspired many... but never have they been so boundless!**

This Cartzzle features only one piece of art, spanning on both sides of the cards; it is boundless. You may compose a part of the picture, remove cards and flip them and place them elsewhere to continue this endless forest!

## Quests for loners

1. Compose part of the picture, using all the cards. Have fun with the picture! Removing cards, flipping them, and laying them elsewhere will change the picture!

## Boundless Brocéliande - Solo challenges

2. Compose a scene that features entirely and at the same time:
- 🕒 First, the Dragon and the Fisher King.
  - 🕒 Then, the Dragon and the Banquet.
  - 🕒 Then, the Banquet and the little brown boar next to the rabbit.
3. This legend can be interpreted in many different fashions! There are 5 alternate situations you should recompose:
- 🕒 A mounted Mordred assaults the castle. The attack prompts Guinevere and Lancelot to flee.  
Find them all, then fully compose this scene.
  - 🕒 Merlin doesn't always brew the same potion...
  - 🕒 They don't call Vivian the Lady of the Lake without reason...
  - 🕒 Those who tickle the dragon's tail end up roasted like bacon!

### Knights of the Round Table - 2 to 4 players team up!

Shuffle cards into a deck. Each player draws 4 cards (2 players), 3 (3 players) or 2 (4 players).

Hold your cards fanned, so that the other players can see the backs well. Lay the first card of the deck on the table.

Players take turns clockwise. On their turn, the active player may:

- . either lay one of their cards, on the front side or backside, to complete the scene, and draw another one,
- . or lay the first card of the deck,
- . or put a card from their hand into the discard paile to draw a new card.

## Boundless Brocéliande - Team challenges

Caution: every card that has been laid cannot be moved.

When it's not your turn, you can give advice to the active player as you can see part of their cards.

As soon as the deck is empty and the players have no more cards in their hands, the game is over.

The final score is twenty, minus one for each discarded card AND one for each untidy mess of a card arrangement. 20 is a perfect score!
